

## Hexis provides disruptive technologies for cybersecurity like automed threat removal

**Hexis Mission Impossible: TAMING A ROGUE NATION**

**Brievs, Agents!** You have chosen to accept this assignment. Your completion of this mission will make you eligible to win a set of tickets to the actual movie Mission Impossible, starring Tom Cruise. Your mission details are below.

DATE: July 14, 2015  
TIME: 8:00 am PST  
DURATION: 27 Minutes

In this session Hexis' own Eshan Hunic (aka cyber agent Todd Weller) will present how automated response to threats is your best response to tame rogue intruders in the cyber world you never knew.

## You've gotta know your enemy to successfully defend against him

**CISO, VPs:**  
Your sensitive data and intellectual property are priceless. Secure your enterprise with the best technology and experience. [MORE](#)

**SOC MANAGER, DIRECTORS:**  
Your staff is running at full tilt and hackers are still one step ahead. Defend the network and endpoints with policy-based automation. [MORE](#)

**IR TEAMS, ENGINEERS:**  
Your tools are disparate and threats are relentless. Use data intelligence to detect, verify and remove threats with confidence. [MORE](#)

## HawkEye G defends against advanced persistent threats with automated threat removal

**Detect**

Integrated platform including real-time endpoint sensors, network edge detection and third-party ecosystem.

**Verify**

Host and network correlation confirms the threat to pinpoint where you really need to respond.

**Remove**

Automation and machine-guided is a force-multiplier to remove the threat before a breach occurs.

### Follow Us

Under constant cyber attack, you need protection for your enterprise...end to end.

360° endpoint & network visibility with advanced threat analytics

[Learn More](#)

"Our current level of cybersecurity wasn't enough. Had we done nothing, it would only have been a matter of time. I now I sleep better at night."

Andre Bromes, Chief Information Officer  
Goodwill Industries NYNJ

Designated a "Cool Vendor" Gartner 2015\*

"There really isn't any other solution currently in the market like HawkEye G. Once they explained what the solution does and how it does it, we were ready to give it a go."

Mark Valentine, Head of Information  
Lookers, plc

## HawkEye G Defends Against Targeted Attacks

### Detect

Perimeter security is not 100% effective. Give your organization a 360-degree view into the activity on your network and endpoints.

### Verify

Suffering from alert fatigue? Empower your team to know which threats alerts matter, and what really needs your attention.

### Respond

Attacks are continuous. Is your response? Implement policy-based countermeasures to respond with machine-speed and flexibility.

PREDICTIVE LEAD SCORING, LEAD SCORING

Lead scoring is a methodology used to rank prospects against a scale that represents the likelihood that a lead will turn into sales and/or the perceived value that each lead represents to the organization. B2B companies benefit from lead scoring because it provides a framework for prioritizing leads and establishing the hand-off between marketing and sales.
